WORK EXPERIENCE

Project Manager

June 2025 – September 2025

Storyteller

Toronto, ON

- Managed **3+ concurrent software product launch roadmaps** for clients' (NBA, NFL) web, iOS, and Android applications that increased high impact content **engagement by 700%**.
- Launched agentic AI-powered translation feature to optimize content accessibility and drive content discovery for multilingual user segments by using **ChatGPT prompt engineering**, and created client-facing user guides, SOP for stakeholder coaching.
- Facilitated requirement gathering meetings with 8-member cross-functional team (engineering, design, account), vendors, and clients, translated requirements to agile launch roadmaps, and accelerated high-impact features launch timeline **by 50%**.
- Directed end-to-end UAT and readiness assessments throughout the software development lifecycle, performing root-cause analysis on integration failures, optimizing testing workflow by redesigning the QA checklist, which ensured the launched product meets functional and non-functional requirements while increasing team operational velocity by 67%.

Digital Transformation Consultant

May 2024 – December 2024

United Way

London, ON

- Developed 12-months product roadmap to digitalize donation process for business and customers by integrating predictive AI-powered donor data management system, personalized donor portal and AI Chatbot features.
- Proposed fundraiser discovery functionality by personalizing recommendations based on intent from search and donation history data analysis, projected to **increase donations by 20%** from targeted Gen-Z and millennial segments.
- Spearheaded mobile-first UX redesign for streamlined navigation and feed optimization based on: web traffic analysis showing 54% mobile-to-web skew, competitive benchmarking against GoFundMe, SickKids Foundations for digital donation best practices, and user research with target segments; projected **91% retention rate** and redesign implemented by business.

AI Strategy Consultant

May 2024 – June 2024

Canadian Imperial Bank of Commerce (CIBC)

Toronto, ON

- Advanced CIBC's Responsible AI capabilities by designing the CIBC AI Center website MVP, which aligned internal capabilities to client-facing communication needs, lifting CIBC's industry ranking in AI maturity benchmark index by **7 positions**.
- Achieved leadership buy-in for a new Responsible AI framework through video demo and strategic report presentation, demonstrated impact on responsible AI on client trust and lifetime value.

Change Management Consultant

May 2024 – June 2024

SickKids Hospital

Toronto, ON

- Proposed technology strategy to integrate 3D Modelling and Digital Twin in complex surgery operation, and developed a three-phase roadmap for implementation; projected to reduce surgical errors by **54%** and improve surgical efficiency by **230%**.
- Mapped existing and future-state surgery process flow diagrams using **Miro**, highlighting pain points for patients and hospital user groups, which demonstrated improved patient experiences with proposed solution.

PROJECTS

Product Portfolio website ([Next.js](#), React, Cursor)

February 2026 - Present

- Built product portfolio using Figma, [Next.js](#), React, Tailwind CSS, Vercel through Cursor and Claude Code, including writing PRD, designing UI, successfully launched 5 features to engage website users.
